S. Comments:T. Harrison explained that the mare had a nice run in a handy position on the rail, had travelled well to the turn and on straightening she was confident that the horse would finish its race off. She said when afforded clear running at the top of the straight and placed under pressure, the mare did not quicken and gave ground. She added that she was of the opinion that as the mare has only ever raced on firm tracks, it may not have handled today's soft track conditions.

Trainer advised stewards that this is the second occasion on which the filly has hung out at this track and may not be suited to racing at Ipswich. He indicated that it was now his intention to send the filly for an immediate spell. A post race veterinary examination revealed the filly to be shin sore. Trainer was advised that should the filly start within 6 weeks a veterinary clearance must be provided.

Trainer subsequently reported the horse was sore over the back, neck and wither and would receive chiropractic treatment in the coming days as it may have jarred up thereby contributing to the disappointing performance. Has since been treated, and will be given one more chance this prep.
