S. Comments:J. Orman could offer no tangible explanation for the horse's disappointing performance other than that the gelding may not have been suited by racing in a more forward position in today's event. A post-race veterinary examination revealed a slow post-race recovery and a very high heart rate. Stewards will follow up with trainer R. Lipp in the days following the event regarding the horse's post-race recovery.

S. Comments:Steadied to avoid heels near the 800m. Momentarily steadied approaching the home turn. When questioned, rider said after beginning well he obtained the lead, however at the 800m he allowed another runner to cross him. He said from that point the horse proved one-paced and failed to sprint as he expected and ran on only fairly in the straight. He added that bearing in mind the manner in which the horse finished the race off, in his opinion it may have been a better option maintaining the leading position rather than allowing his mount to be crossed. Vetted, no abnormalities.

S. Comments:When questioned as to the tactics adopted today, particularly if there was an opportunity to obtain a trailing position behind WALWA passing the 1400m, App. S Fawke stated that he had been specifically instructed to allow the gelding to roll forward. App. Fawke conceded that he should have restrained the gelding to obtain cover behind WALWA but was reluctant to do so given the instructions he had been issued.

S. Comments:Tightened for room and steadied nearing the 400m.	Inquiry re performance. Apprentice Orman stated after beginning awkwardly and bumping the barriers, the horse hung out and was unable to cross inside runners. He added that it weakened from the home turn and proved disappointing. He noted the horse was sweating badly pre race, which may have affected its performance. Trainer S. Kendrick agreed that its pre-race behaviour could have affected its performance, adding it would now be sent for a spell. Vetted with no abnormalities reported.

The horse, in her opinion, did not show its customary early speed and did not travel comfortably at any stage during the event. After pulling up she was of the view that the horse may have had a breathing issue during the event as it became distressed post race. A post race veterinary examination failed to reveal any significant abnormalities.

S. Comments:Trainer B. Baldwin was afforded the opportunity to explain the improved performance. He said that at the horse's previous start from a good draw it gained a favourable position early, however was shuffled back in running to a rearward position before being shifted wider and finishing the race off nicely. He added prior to that the horse raced over a shorter distance and had previously shown disappointing performances on rain affected tracks. Mr Baldwin added with today's increase in distance and the horse dropping back in class the filly performed favourably as he expected.
