S. Comments: When quest re riding between 1200m & 800m as to whether should have pressured gelding in order to try hold position, Rdr stated early, did not feel gelding was travelling comfortably & felt was best served being allowed to find its rhythm-said believed horse would have travelled more keenly with Blks, which was recommended to connections-added shortly after 900m, commenced to place pressure on horse & gelding did take some time to quicken into the event. Thr stated was now intention to add blinkers to geldings approved gear.

S. Comments: Began awkwardly, lost ground and as a result settled further back than anticipated. When asked about tactics, particularly approaching 350m, Rdr stated was reluctant to come to the outside of runner in front as concerned that that runner may shift ground-added was reluctant to unbalance the mare round home turn. In noting the explanation, Rdr was advised to ride mounts in such a manner that would not leave riding open to question.

S. Comments: When guest re riding between 1200m & 800m as to whether should have pressured gelding in order to try hold position, Rdr stated early, did not feel gelding was travelling comfortably & felt was best served being allowed to find its rhythm-said believed horse would have travelled more keenly with Blks, which was recommended to connections-added shortly after 900m, commenced to place pressure on horse & gelding did take some time to quicken into the event. Tnr stated was now intention to add blinkers to geldings approved gear.
