Rider advised that, after commencing to give ground near the 400m his mount soon after felt short in its action, though he did not feel the gelding was sore, but rather exhibiting signs of a lack of fitness. As such, he did not place his mount under any undue pressure in the home straight. A post-race veterinary examination failed to reveal any significant abnormalities. Stewards intend to follow up with the trainer as to the geldings condition in the coming days. | | | |

S. Comments:Bumped on jumping, shifted out and bumped a further runner. Shifted in marginally and bumped leaving the 100m becoming tightened for room and loosing ground. Underwent a post-race veterinary examination which revealed a slow post-race recovery. Jockey advised that, in his opinion, the mare may have been over-represented in the market and would likely derive a fitness benefit from the run.

Jockey S. Collett added she gave recommendation to connections to send the horse for a spell. A post-race veterinary examination revealed no apparent abnormalities. | | | |
