S. Comments:Had to be steadied from heels near the 1400m. R. Fradd explained that from his wide barrier he was obliged to settle further back in the field than he would have liked and this, coupled with the steady tempo of the race, did not suit the horse. He added that he is of the opinion that the horse is better suited to races over shorter distances with a more genuine speed to allow the horse to travel without having to be restrained. A post-race veterinary examination revealed no significant findings.

S. Comments:Inquiry re performance. Rider said he expected to race more forward but due to the early pace was content to position back in the field following the eventual winner. He added the mare never travelled comfortably and when pressured leaving 500m failed to let down and proved disappointing. Trainer reported that tests conducted days subsequent to race failed to reveal any abnormalities. Noted horse was having first start in tongue tie which it may have resented and as such tongue tie would be removed for next start. Vetted with no abnormalities reported. A swab sample was taken.

 S. Comments:Slow to begin.B. Stewart indicated he had been instructed to ride the horse in the second half of the field and as a result took hold out of the barriers. He then had to pressure the horse in the early stages to remain in contact with the rest of the field and felt then that the horse travelled well until being asked for an effort rounding the home turn, however the horse did not quicken as he would have liked, however over the final 250m the horse was doing its best work, and he was obliged to steady over the concluding stages after improving on to heels.
