S. Comments:When asked to explain the performance, jockey D. Browne stated that the horse travelled well in the early and middle stages but did not respond to his riding as he expected soon after straightening. He recommended to connections that a tongue-tie be applied for future starts as he was of the view that the horse may have got its tongue back during the event. A post race veterinary examination revealed the horse to have a slow post-race recovery. A swab sample was taken.			In Running: /3/4
