S. Comments:After being fractious in the barriers was examined by the veterinary surgeon and cleared to start. Made contact with the running rail leaving the 600m. Laid in under pressure in the home straight. A post-race veterinary examination revealed the gelding to have an elevated heart rate. Trainer subsequently advised Stewards that blood samples taken from the gelding revealed no abnormalities, and it was his intention to continue with the horse's current preparation.

He stated that he was told to push forward to obtain the lead or a position outside the leader and to not restrain the gelding. Stewards believe when racing wide he may have erred in his decision to stay wide when it would have been better to obtain a position one off the fence behind the two leaders.App J

Guthmann-Chester agreed with Stewards that in hindsight it would have been a better option to give the horse a chance of finishing the race off.
