S. Comments:Questioned re performance, rider stated that with blinkers added to the gear he intended on settling in a forward position however his was unable to muster early speed and settled further back. Added that his mount started to work into a sprint rounding the home turn however he was obliged to stop riding it along when it was tightened for room at the entrance to the straight. Added that failed to sprint from this point and was disappointing in its run to the line. A vet exam did not reveal any abnormality.
