S. Comments:Rider questioned re performance. He said he was instructed to ride positively out of the gates and take up a forward position, however after travelling a short distance, he was unable to improve to a forward position as runners to his outside had crossed and he had to race midfield with cover. He said the filly raced greenly throughout and may not have been comfortable on the soft track conditions and that it may have got its tongue over the bit and choked down, and he had recommended to connections to experiment with the addition of a tongue tie for its next start.

S. Comments:Rider explanation re disappointing performance - rider stated had to ride aggressively early stages from the wide barrier to take up a forward position and the horse travelled comfortably in the middle stages but when pressured soon after straightening did not respond to his riding. Trainer confirmed gelding will be sent for an immediate spell. Vetted - no abnormalities. Trainer later reported horses had been found to be suffering from a virus which may have explained poor performance.

Approaching and rounding the home was held up for clear running when awkwardly placed on heels. When questioned re the performance, rider explained her mount suffered from an interrupted run throughout the event. Further said shortly after straightening when afforded clear running her mount failed to respond to her urgings as expected and was disappointing. A post race vet exam revealed no abnormalities.
