S. Comments:Stewards considered an objection lodged by second placegetter against the gelding, alleging interference over the final stages. On the evidence it was established that inside the final 30 metres gelding shifted out under riding and bumped the second placegetter carrying it wider. Bearing in mind the manner in which both horses ran to the finish, and the margin of a nose between them at the finish, stewards were comfortably satisfied that had the interference not occurred second placegetter would have finished ahead of the gelding. Accordingly the protest was upheld and the placings amended.

S. Comments:When questioned regarding tactics adopted on the gelding, Jockey explained she had been instructed to lead. She said after beginning only fairly, she rode her mount vigorously in the early stages to comply with her instructions. She added that after obtaining the lead the gelding then commenced to over-race and refused to settle and as a result was left without a finishing effort and weakened noticeably. A post-race veterinary examination did not reveal any abnormalities. Jockey concurred with stewards in that she should have made a greater effort to restrain her mount once in the lead.

When questioned regarding the poor performance Jockey explained that he had been instructed to ride the gelding vigorously early in an attempt to obtain a forward position. After beginning well he rode his mount along with the whip in an endeavour to comply with his instructions and obtained a leading position. However after passing 800m his mount was under pressure, weakened and was disappointing. Trainer confirmed instructions however expressed disappointment with the performance and said that in light of the poor performance the gelding would now be spelled.

S. Comments:Passing the 1400m had to be steadied when momentarily tightened for room. When questioned regarding the performance, Jockey explained that he had been instructed to ride the gelding in a forward position, in accordance with its established race pattern. He said that when the pace quickened he was only able to maintain a midfield position, where his mount travelled fairly throughout, however when placed under pressure in the straight failed to respond to his urgings and was disappointing. A post-race veterinary examination revealed that the gelding had sustained lacerations to both hind legs.
