S. Comments:Questioned re: actions in locking back over shoulder on two occasions. Rider advised horse had been slow to begin and expected to settle midfield. Therefore, surprised when jumped well and found itself in lead. Had a look near the 700m when one of the two expected leaders improvide to his outside. Then had another look near the 400 to ascertain if he could shift out across the heels of runner outside of him but was unable to do so when other runner commenced to improve to his outside. Stewards noted explanation but expressed their concerns and advised jockey not leave riding open to question.

S. Comments:Rider T Clark explained that the colt, which was racing without blinkers, travelled well in the early and middle stages, however, was under pressure from as far out as the 800m and weakened in the straight. He indicated that, in his opinion, the colt may have come to the end of its preparation. A post-race veterinary examination revealed the colt to be displaying a poor post-race recovery and showing signs of heat stress.
